Maybe even better than free.

Any file in any format can be uploaded and downloaded for free. You can upload any type of file (movies, music, documents, images, zip files and more).There are no restrictions on the number of times a file can be downloaded. Keep your files private, or send your download links only to friends or family. Youdecide who you want to share your files with. You can give this download link to your friends by mail or instant messenger. File is free to use with no gotchasand no hidden fees. filehosting provides an easy possibility for you to send large files to your friends. Simply upload your file and share the link. Your walletwill be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers,then from our servers to your friends device. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Files can bedownloaded from any computer from our high speed servers. So try our free and simple filehosting service now. Alternatively you can choose to share yourdownload links on blogs, forums and social networking sites. Unfortunately, we can't make that part free. You don't need any special software installed to beable to download your files. Just upload the file you want to share with your friends and we send you a download link to your file. Using file, you cancircumvent those limits without paying to upgrade your team chat service. Our service is completely free for everyone. Files transferred the old-fashioned waytend to pile up and be forgotten about, eventually costing you money in data storage fees. We have no file size limit. If only we could, we surely would! On theother hand, using file can actually save you money. No account or credit card is required to get started. The cost of that data transfer is covered by your internetservice or the data plan on your phone. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps havelimits to the size of files that can be transferred within their apps. It is also allowed to link to the download page from websites and communities. This is easy,fast and reliable filehosting! You don't need any kind of premium-accounts.
